from -5° C to +140° C*

WINE BARREL BAR

The irresistible charm of a wine barrel bar adds a unique flair to your next event or buffet presentation. Be it a wine cellar that longs for a touch of comfort, a standing table event or an extraordinary food display presentation. But what really makes this wine barrel standing table so special is the built-in bucket holder, which can regulate temperatures between -5 to +140 ° Celsius. This wine barrel is an eye-catcher and a functional element at the same time.

Available in two versions:

Cold | warm bucket holder with a temperature regulation from -5° to +140° C.

Cold bucket holder with a temperature regulation from -5° to +15° C.

The barrel is delivered ready to plug-in. With an adjustable temperature control display and supply line.

Power requirement:

230 Volts - 50/60 Hz

Cold | Warm bucket holder: 700 watt

Cold bucket holder: 100 watt
